

Presenting an original design PASMO card!
Exclusively for purchase by overseas tourists in Japan!

October 29, 2015
Tokyo Metro Co., Ltd.

On Tuesday, November 17, 2015 Tokyo Metro will start selling an original design PASMO card that differs from the design of the regular PASMO card. This card has been specially designed to appeal to visitors to Japan.

This original design PASMO card can be reused again and again by simply topping up the balance in the same way as you would with a regular PASMO card. PASMO can be used throughout Japan on any railway, subway or bus route that accepts PASMO, eliminating the need to purchase a ticket every time you travel, making travel a smoother and more enjoyable experience. The balance on your PASMO card can also be used as electronic money to pay for purchases at selected convenience stores and vending machines.

We hope that tourists visiting Tokyo will use this original design PASMO card to enjoy hassle-free sight-seeing in and around Tokyo. When they return home the original design PASMO card can be kept as a memento of their trip and on their return to Tokyo they can use it again!

Please see the attachment for further details.
