[Reason for nomination as a candidate for External Audit & Supervisory Board Member] Mr. Tatsufumi Sakai has been engaged in financial operations for many years at The Industrial Bank of Japan, Limited, Mizuho Corporate Bank, Ltd., and Mizuho Financial Group, Inc. He has served as President and CEO of Mizuho Securities Co., Ltd., as well as President and Group Chief Executive Officer of Mizuho Financial Group, Inc. His wealth of experience and high level of insight at the core of the financial industry make him well-suited to audit the Company’s management, including its business operations and accounting. Therefore, the Company believes that he is well qualified to serve as an External Audit & Supervisory Board Member and has newly nominated Mr. Tatsufumi Sakai as a candidate for the position.

<p>[Reason for nomination as a candidate for External Audit & Supervisory Board Member] Ms. Katsura Enyo has a wealth of experience and a high level of insight regarding the administration of the Tokyo Metropolitan Government, including serving as Director-General of the Bureau of Olympic and Paralympic Tokyo 2020 Games Preparation. Since June 2022, she has served as an Audit & Supervisory Board Member of the Company, auditing its management, including business operations and accounting, from an independent and objective standpoint. The Company has renominated Ms. Katsura Enyo as a candidate for External Audit & Supervisory Board Member, with the expectation that she will continue to appropriately audit its business operations and accounting.</p>			

- Notes:
1. Among the candidates, there were transactions between the Company and ProNed Inc., where Mr. Masaaki Kushibiki served as Executive Vice President, that exceeded 2% of ProNed Inc.'s net sales. He retired as Executive Vice President effective March 2025. There are no special interests between each candidate and the Company.
 2. Among the candidates, Ms. Katsura Enyo will have served as an External Audit & Supervisory Board Member of the Company for three years at the closing of this General Meeting of Shareholders.
 3. The Company has concluded an agreement with Ms. Katsura Enyo to limit her liability for damages pursuant to Article 423, Paragraph 1 of the Companies Act. The liability under the said agreement is limited to the minimum amount stipulated by Article 425, Paragraph 1 of the same Act. If her reappointment is approved, the Company will continue the said liability limitation agreement with her.
 4. The Company has concluded a directors and officers liability insurance agreement with an insurance company as stipulated in Article 430-3, Paragraph 1 of the Companies Act to cover the litigation costs and compensation for damages arising from third party litigations, which are to be legally borne by the insured. If the election of each of the candidates is approved, each of them will be insured under the said insurance agreement. In addition, the Company plans to renew the said insurance agreement under the same terms and conditions at the next time of renewal.

5. Among the candidates, Mr. Tatsufumi Sakai meets the independence standards for independent officers set forth by Tokyo Stock Exchange, Inc., as well as the Company's criteria for the independence of External Officers. If his election is approved, the Company will designate him as an independent officer.
6. Among the candidates, Mr. Masaaki Kushibiki served as an executive of ProNed Inc. until March 2025. The Company is a business partner of ProNed Inc., with transactions exceeding 2% of ProNed Inc.'s consolidated net sales. However, the Company believes that he is well-suited to serve as an independent officer of the Company due to his strong insight into auditing, finance and accounting, as well as legal affairs and risk management, and in light of his character, sound judgment, and other attributes. The Company also determines that there is no risk of conflict of interest arising between him and the general shareholders, given that he served as an executive of ProNed Inc. for only a brief period. Therefore, if his election is approved, the Company intends to designate him as an independent officer, as he meets the independence criteria for independent officers stipulated by the Company.
7. Among the candidates, in November 2021, while Mr. Tatsufumi Sakai was serving as a Member of the Board of Directors, President, and Group CEO of Mizuho Financial Group, Inc., both Mizuho Financial Group, Inc. and Mizuho Bank, Ltd. received a business improvement order from the Financial Services Agency pursuant to the provisions of the Banking Act, in connection with a series of system failures and other issues that occurred on or after February 28, 2021. (At the same time, Mizuho Bank, Ltd. also received a corrective action order from the Ministry of Finance pursuant to the provisions of the Foreign Exchange and Foreign Trade Act.)

As Group CEO, Mr. Tatsufumi Sakai was responsible for identifying the underlying issues behind the series of system failures and leading the process of formulating concrete measures to prevent recurrence based on their root causes. He ensured the establishment of a framework that included executive-level discussions, supervisory-level verifications, and the validation of improvement measures by an external investigation committee composed of outside experts and specialists. Under his leadership, a comprehensive plan was developed and implemented, consisting of "enhancing multi-layered failure response capabilities," "advancing management and administrative responses," and "continuously strengthening personnel and the organization."

(Reference) Independence Criteria

In addition to meeting the independence standards established by the Tokyo Stock Exchange, an External Officer of the Company shall be considered independent if they do not meet any of the criteria listed below.

- (1) An executive (including executive director, executive officer, corporate officer, or other equivalent person or employee; the same shall apply hereinafter) of a business partner that has accounted for 2% or more of the Company's consolidated net sales in any of the past three fiscal years
- (2) An executive of a business partner for which the Company has accounted for 2% or more of the partner's consolidated net sales in any of the past three fiscal years
- (3) An executive of a principal lender (including a financial institution or other major creditor on which the Company was dependent to an indispensable and irreplaceable extent for its financing as of the end of any of the past three fiscal years)
- (4) An executive of a major shareholder of the Company that held 10% or more of the total voting rights as of the end of any of the past three fiscal years
- (5) A consultant, accounting specialist, or legal specialist who has received compensation exceeding 10 million yen per year from the Company in any of the past three fiscal years (In the case where the individual is affiliated with an organization, such as a corporation, this refers to a person described in the preceding item who belongs to an organization that, in any of the three most recent fiscal years of the individual, has received property benefits from the Company and its consolidated subsidiaries exceeding 2% of the organization's annual revenue)
- (6) A person who has received donations or subsidies exceeding 10 million yen per year from the Company in any of the past three fiscal years. However, if the party is a corporation, this refers to a person who is an executive of a corporation that, in any of the three most recent fiscal years of the party, has received donations or subsidies from the Company or its consolidated subsidiaries exceeding 2% of the corporation's annual sales or total annual revenue.
- (7) A person who belongs to a certified public accountant or an audit firm that has served as the Company's External Accounting Auditor in the past three years (excluding administrative or support staff)
- (8) A spouse or relative within the second degree of kinship of a Managing Director or an equivalent officer of the Company or any of its consolidated subsidiaries
- (9) In addition to the above, any individual who has a significant interest that may give rise to doubts about their independence.

Furthermore, even if an individual falls under any of the items listed above, the Company may designate such individual as a candidate for independent officer if it determines, in light of the individual's character, sound judgment, and other attributes, that the individual is appropriate for the role. In such cases, the Company shall provide a public explanation of the reasons why it believes the individual satisfies the requirements for independent officers and is suitable for the position.

Proposal 4: Determination of Compensation for the Allotment of Restricted Stock to Managing Directors
(Excluding External Directors)

This proposal asks for approval to introduce new incentive plans for the Company's Managing Directors (excluding External Managing Directors; hereinafter, "Eligible Directors"), which consist of two types of stock compensation plans using restricted stock: I. Pre-delivery type restricted stock compensation plan (hereinafter, "Plan I") and II. Performance-linked type restricted stock compensation (Performance Share Unit) plan (hereinafter, "Plan II") (hereinafter, collectively referred to as the "Plans").

At the meeting of shareholders for foundation of the Company held on March 24, 2004, approval was obtained to pay an amount of compensation to the Company's Managing Directors (including External Managing Directors) of no greater than ¥300 million per year. However, through this proposal the Company intends to establish a framework for compensation under the Plans that will function separately from this initial framework.

Under the Plans, monetary compensation claims will be granted to the Eligible Directors for the purpose of granting restricted stock (meaning the Company's common shares subject to the transfer restrictions imposed by the conclusion of a restricted stock allotment agreement between the Company and Eligible Directors as per 3. (1) b or 3. (2) c below). The Eligible Directors will contribute all of the said monetary compensation claims to the Company as in-kind contributions, upon which the Company will issue or dispose of the Company's common shares to the Eligible Directors, and allow the Eligible Directors to hold them. The Plans are comprised of the following two restricted stock compensation plans.

[Plan I: Pre-delivery type restricted stock compensation plan]

The Pre-delivery type restricted stock compensation plan is a plan under which, in principle, each year, a number of the Company's common shares are granted to the Eligible Directors according to their positions within the Company (unlike the Plan II, the number of the Company's common shares is not linked to the performance of the Company). These granted stocks shall be subject to the transfer restriction that shall be lifted upon the retirement of the Eligible Directors (the "retirement" shall be deemed to have occurred when an Eligible Director ceases to be a Managing Director or Executive Officer of the Company; the same shall apply hereinafter.) (Plan I).

[Plan II: Performance-linked type restricted stock compensation plan (Performance Share Unit)]

The Performance-linked type restricted stock compensation plan (Performance Share Unit) is a plan under which one Mid-term Management Plan period (a period covering multiple fiscal years determined by the board of directors) shall be designated as "performance evaluation period," and, in principle, the Company's common shares will be granted to the Eligible Directors in the fiscal year immediately following the end of such Mid-term Management Plan period and the number of the Company's common shares will be determined based on the degree of achievement of the performance goals during the period of such Mid-term Management Plan. These granted stocks shall be subject to the transfer restriction that shall be lifted upon the retirement of the Eligible Directors (Plan II).

The amount to be paid per common share of the Company that is to be granted as restricted stock under the Plans shall be the closing price of the Company's common shares on the Tokyo Stock Exchange on the business day preceding the respective resolutions of the Board of Directors with respect to the issuing or disposal of the common shares in question (if there are no transactions on that day, the closing price on the most recent day in which there was a transaction; the same shall apply hereinafter). The specific timing of the granting and the allocation of restricted stock to Managing Directors under the Plans shall be determined by the Board of Directors.

The shares allocated to the Eligible Directors under the Plans are scheduled to be managed in a dedicated account opened by the Eligible Directors at a securities company, determined by the Company, so that they cannot transfer, create a security interest in or otherwise dispose of the shares during the restricted period.

1. Reasons why the proposal is appropriate

The purpose of the Plans is to further clarify the linkage between the compensation provided to Eligible Directors and the Company's business performance and stock value, and to enhance the awareness of the Eligible Directors toward improving performance over the medium- to long-term, increasing corporate value, and achieving the goals set out in the Mid-term Management Plan by ensuring that the benefits and risks associated with the performance of the Company and fluctuations in its stock price are shared with our shareholders.

An overview of the details of the Company's policy for determining the content of compensation, etc. for individual Managing Directors is provided in the Business Report, "4. Matters Concerning Corporate Officers,

4 Compensation, etc. for Managing Directors and Audit & Supervisory Board Members for the Current Fiscal Year, and (3) Total Amount of Compensation, etc. for Managing Directors and Audit & Supervisory Board Members.” However, subject to approval of this proposal, the Board of Directors resolved at its meeting held on May 16, 2025 to change the content of the proposal as described in “Reference” below. The content of the proposal is necessary and reasonable for the payment of compensation, etc. to individual Managing Directors in accordance with such policy after the change. In addition, the maximum number of common shares to be issued or disposed of to the Eligible Directors shall be no greater than the figure arrived at by calculating the number of years comprising the respective Mid-term Management Plan of the Company by 100,000 shares (for a three-year Mid-term Management Plan, the figure shall be no greater than 300,000 shares; an approximately 0.05% ratio of total shares outstanding), and as the potential dilution ratio is also minimal, the Company believes the content of the proposal is appropriate.

If Proposal 2: “Election of Eleven Managing Directors” is approved as proposed, there will be seven Eligible Directors.

In addition, should this proposal be approved as proposed, the Company also intends to introduce a stock compensation plan for its Executive Officers that will function in a similar manner to the Plans.

2. Upper limits on amount of monetary compensation claims and number of shares

As an amount thought appropriate in light of the goals stated in “Reasons why the proposal is appropriate,” the total amount of monetary compensation claims to be paid to Eligible Directors under the Plans shall be no greater than the value calculated by multiplying the number of years comprising the respective Mid-term Management Plan of the Company, per Mid-term Management Plan period, by ¥150 million (for a three-year Mid-term Management Plan, the figure shall be no greater than ¥450 million.)

The total number of common shares to be issued to Eligible Directors or disposed of by the Company under the Plans shall be no greater than the figure arrived at by calculating the number of years comprising the respective Mid-term Management Plan of the Company, per Mid-term Management Plan period, by 100,000 shares (for a three-year Mid-term Management Plan, the figure shall be no greater than 300,000 shares). However, in the event that there is a requirement to adjust the total number of the Company’s common shares that are to be issued or disposed of after the passing of resolution at this Ordinary General Meeting of Shareholders due to circumstances such as a stock split (including allotment of the common shares without compensation) or stock consolidation, the upper limit shall be adjusted in a rational manner to reflect this stock split or consolidation.

Each of the above maximums per Mid-term Management Plan period is premised on the total of the following being within respective maximums.

(1) Compensation based on Plan I

The total amount of monetary compensation claims and the total number of common shares to be issued or disposed of, where the payment date and grant date fall within the relevant Mid-term Management Plan period

(2) Compensation based on Plan II

The total amount of monetary claims paid as compensation for performance of duties during the relevant Mid-term Management Plan period, and the total number of ordinary shares issued or disposed of.

3. Details of the Plans

(1) Plan I: Pre-delivery type restricted stock compensation plan

a. Method for determining the amount of monetary compensation claims and number of shares

The amount of monetary compensation claims to be paid under Plan I shall be determined based on the respective rank etc. of the Eligible Directors. (However, the total amount of such monetary compensation, together with the total amount of monetary compensation claims to be paid under Plan II, shall be within the maximum amount stated in 2. above.)

The number of restricted stock to be granted under Plan I shall be a number equivalent to the value obtained by dividing the amount corresponding to the relevant monetary compensation claims by the closing price of the Company’s common shares on the Tokyo Stock Exchange on the business day preceding the respective resolutions of the Board of Directors with respect to the issuing or disposal of the common shares of the Company as restricted stock. (However, the total amount of such shares, together with the total amount of restricted stock to be granted under Plan II, shall be within the maximum amount mentioned in 2. above.)

b. Details of transfer restriction agreement

When issuing or disposing of the Company’s common shares under Plan I, a restricted stock allotment agreement (hereinafter, “Allotment Agreement I”) shall be concluded between the Company and the Eligible Directors, which shall include the following stipulations:

(a) Transfer restriction period

Eligible Directors shall not transfer, create a security interest in, or otherwise dispose of the common shares of the Company that are allocated under the Allotment Agreement (hereinafter, "Allotted Shares I"), from the date they have received the allotment set forth in Allotment Agreement I to the date of their resignation (hereinafter, "Transfer Restriction Period I").

(b) Lifting of transfer restrictions

The Company shall lift the restriction on transfer of all Allotted Shares I shares upon the expiration of Transfer Restriction Period I, provided the Eligible Director's retirement is due to the expiration of their term of office, illness that prevents them from continuing to perform their duties, death, or other reasons deemed justifiable by the Board of the Company (however, if the Company acquires a portion of the Allotted Shares without compensation in accordance with (c)(ii) below, the remaining portion after such acquisition without compensation).

(c) Acquisition without compensation of Allotted Shares I

- i. The Company shall automatically and without compensation acquire any Allotted Shares I shares that have not had their transfer restriction lifted, pursuant to the provisions of (b) above, as of the expiration of Transfer Restriction Period I.
- ii. In addition, if an individual retires due to expiration of their term, incapacitating illness, death, or other reasons deemed justifiable by the Company's Board of Directors during the service period for which the Allotted Shares I shares are issued, the Company will acquire the remaining Allotted Shares I shares without compensation, equivalent to the remaining service period. Furthermore, if during Transfer Restriction Period I an Eligible Directors commits certain acts of misconduct that result in a prison term or more severe sentence, or engages in a business that competes with the Company, or otherwise commits serious violations of the law or internal regulations, the Company may acquire all or part of the issued shares of Allotted Shares I without compensation.

(d) Treatment in the event of organizational restructuring, etc.

Notwithstanding (a) above, if, during Transfer Restriction Period I a merger agreement in which the Company becomes the dissolved company, a stock exchange agreement in which the Company becomes a wholly-owned subsidiary, a stock transfer plan, or other matters relating to organizational restructuring, etc., are approved by the Company's General Meeting of Shareholders (however, in cases where the reorganization and other matter does not require approval from the Company's General Meeting of Shareholders, the Board of Directors will approve), then, regarding Allotted Shares I in which the number of shares is calculated reasonably based on the period from the start of the term of service to the effective date of the respective organizational restructuring, etc., the transfer restriction will be lifted prior to the effective date of the relevant organizational restructuring, etc. In addition, the Company shall automatically and without compensation acquire any Allotted Shares I shares that have not had their transfer restriction lifted as of the time immediately following the lifting of such restrictions.

(e) Acquisition without compensation after lifting of transfer restrictions

After the restriction on transfer is lifted, if it is revealed that the reason or the cause for the lifting of restrictions was behavior as specified in (c)ii during Transfer Restriction Period I, or if there is another reason as determined by the Board of the Company, the Eligible Directors shall immediately return all or part of Allotted Shares I shares to the Company without compensation.

(2) Plan II: Performance-linked type restricted stock compensation (Performance Share Unit) plan

a. Method for determining the amount of monetary compensation claims to be paid and restricted stock to be granted

The amount of monetary compensation claims to be paid and the number of the common shares of the Company to be issued or disposed of under Plan II shall be linked to the degree of achievement of the performance goals during the period of the Company's Mid-term Management Plan.

Specifically, the amount of monetary compensation claims to be granted to each Eligible Directors shall be obtained by multiplying the compensation amount to be determined based on the respective position of the said Eligible Director (hereinafter, "Base Amount by Rank") by the payment rate, which is set in accordance with the degree of achievement of the performance goals during the period of the Mid-term Management Plan, which is the performance evaluation period. (However, the total amount of such monetary compensation, together with the total amount of monetary compensation claims to be paid under Plan I, shall be within the maximum amount stated in 2. above.)

The number of restricted stock to be granted under Plan II shall be a number equivalent to the value obtained by dividing the amount corresponding to the relevant monetary compensation claims by the closing price of the Company's common shares on the Tokyo Stock Exchange on the business day

preceding the respective resolutions of the Board of Directors with respect to the issuing or disposal of the common shares of the Company as restricted stock. (However, the total amount of such shares, together with the total amount of restricted stock to be granted under Plan I, shall be within the maximum amount mentioned in 2. above.)

The specific method for calculating the amount of monetary compensation claims and the number of restricted stock described above shall be determined by a resolution of the Company's Board of Directors. However, during the initial performance evaluation period (from April 1, 2025 to March 31, 2028), the Company plans to use the <Methods for Calculating the Number of Granted Shares> set out below.

<Methods for Calculating the Number of Granted Shares>

(The amount of monetary compensation claims corresponds to the "Calculated Amount of Granted Shares" in the formula below. The number of restricted stock corresponds to the "Number of Granted Shares" in the formula below.)

Number of Granted Shares = Calculated Amount of Granted Shares / Stock Allocation Price (Note 1)

Calculated Amount of Granted Shares = Financial Indicator Calculation Amount + Non-financial Indicator Calculation Amount

Financial Indicator Calculation Amount = Base Amount by Rank x 3 x 0.75 x Consolidated ROE Payment Rate (Note 2)

Non-financial Indicator Calculated Amount = Base Amount by Rank x 3 x 0.10 x Payment Rate of Compensation Relating to Railway Accidents (Note 3)

+ Base Amount by Rank x 3 x 0.08 x Barrier Free Payment Rate (Note 4)

+ Base Amount by Rank x 3 x 0.02 x Customer Satisfaction Rating Payment Rate (Note 5)

+ Base Amount by Rank x 3 x 0.03 x CO₂ Emissions Reduction Payment Rate (Note 6)

+ Base Amount by Rank x 3 x 0.02 x Ratio of Female Managers Payment Rate (Note 7)

(Note 1) The closing price of the Company's common shares on the Tokyo Stock Exchange on the business day preceding the respective resolutions of the Board of Directors with respect to the issuing or disposal of the common shares of the Company as restricted stock.

(Note 2) Varies within the range of 0.0 to 1.5 according to the consolidated ROE in the final fiscal year of the Mid-term Management Plan.

(Note 3) Either 0.0 or 1.0 according to the number of accidents on the Company's rail services during the period of the Mid-term Management Plan.

(Note 4) Either 0.0 or 1.0 according to the barrier-free rate with regard to the Company's rail facilities in the Mid-term Management Plan.

(Note 5) Varies within the range of 0.0 to 1.5 according to the Customer Satisfaction rating as of the expiration of the Mid-term Management Plan period.

(Note 6) Varies within the range of 0.0 to 1.5 according to the progress made toward CO₂ emissions reduction targets for the Group's businesses as of the expiration of the Mid-term Management Plan period.

(Note 7) Either 0.0 or 1.0 according to the ratio of female managers during the period of the Mid-term Management Plan.

The calculation methods described above are standard calculation methods and in the event that an Eligible Director resigns before the performance indicators for the performance evaluation period can be determined, or in the event that the Eligible Director's term of service only corresponds to part of the performance evaluation period or that their respective position changes during the performance evaluation period, reasonable adjustments shall be made to the "Calculated Amount of Granted Shares" and the "Number of Granted Shares."

b. Conditions for payment of monetary compensation claims

Prior to the Board of Director's resolution to determine the amount of monetary compensation claims to be granted to each Eligible Director, if (i) the Eligible Director is sentenced to imprisonment or more severe punishment, engages in business activities that compete with the Company's business, violates laws or the Company's internal regulations in a material way, or has committed other acts of misconduct determined by the Board of Directors, or if (ii) the Eligible Director retires for personal reasons, monetary compensation claims shall not be paid and no grant of restricted stock shall be made (however, this does not apply with a resignation due to justifiable reasons as determined by the

Company's Board of Directors).

In the below cases, the Company will take the following actions.

- If an Eligible Director leaves their position due to the expiration of their term, an illness that makes it difficult to continue their duties, death, or other reasons deemed valid by the Company's Board of Directors, or in other specified circumstances determined by the Board of Directors, during the period from the day following the General Meeting of Shareholders immediately after the start of the performance evaluation period until the Board of Director's resolution to determine the amount of monetary compensation claims to be granted to each target Managing Director after the end of the performance evaluation period:

Common shares of the Company granted to the Eligible Director (or their heir in the event of the Eligible Director's death) shall not have a transfer restriction.

- If, before the allotment date of shares subject to transfer restrictions under the Plan II, the Company becomes the dissolving company in a merger agreement, the Company becomes a wholly-owned subsidiary in a stock exchange agreement or stock transfer plan, or other organizational reorganization matters are approved (however, this is limited to cases where the effective date of such organizational restructuring, etc. is scheduled to fall before the date of grant of the restricted stock under Plan II) at the Company's General Meeting of Shareholders (however, if approval at a General Meeting of Shareholders is not required for the said reorganization, etc., then by the Board of Directors of the Company), or in other prescribed cases as determined by the Board of Directors: The Company may, in lieu of monetary compensation claims, pay a monetary amount calculated in a different but similar method (common shares of the Company will not be allocated). If the amount calculated by this method exceeds the upper limit specified in 2. above when paid to the Eligible Director, the Company shall make a reasonable adjustment to the amount within the scope of the upper limit and provide that adjusted monetary payment.

c. Details of transfer restriction agreement

When issuing or disposing of the Company's common shares under Plan II, a restricted stock allotment agreement (hereinafter, "Allotment Agreement II") shall be concluded between the Company and the Eligible Directors, which shall include the following stipulations:

(a) Transfer restriction period

Eligible Directors shall not transfer, create a security interest in, or otherwise dispose of the common shares of the Company that are allocated under the Allotment Agreement (hereinafter, "Allotted Shares II"), from the date they have received the allotment set forth in Allotment Agreement II to the date of their resignation (hereinafter, "Transfer Restriction Period II").

(b) Lifting of transfer restrictions

The Company shall lift the restriction on transfer of all Allotted Shares II shares upon the expiration of Transfer Restriction Period II, provided the Eligible Director's retirement is due to the expiration of their term of office, illness that prevents them from continuing to perform their duties, death, or other reasons deemed justifiable by the Board of the Company (however, if the Company acquires a portion of the Allotted Shares without compensation in accordance with (c)(ii) below, the remaining portion after such acquisition without compensation).

(c) Acquisition without compensation of Allotted Shares II

- i. The Company shall automatically and without compensation acquire any Allotted Shares II shares that have not had their transfer restriction lifted, pursuant to the provisions of (b) above, as of the expiration of Transfer Restriction Period II.
- ii. Furthermore, if during Transfer Restriction Period II, an Eligible Director commits certain acts of misconduct that result in a prison term or more severe sentence, or engages in a business that competes with the Company, or otherwise commits serious violations of the law or internal regulations, the Company may acquire all or part of the issued shares of Allotted Shares II without compensation.

(d) Treatment in the event of organizational restructuring, etc.

As stated in (1) b (d) above.

(e) Acquisition without compensation after lifting of transfer restrictions

As stated in (1) b (e) above.

Reference

At the meeting of the Board of Directors held on May 16, 2025, the Company resolved to change the policy regarding the determination of individual Managing Director compensation, contingent upon the approval and passage of Proposal 4. Details are as described below.

1. Basic policy

The Company compensates Managing Directors who are not External Managing Directors, with a basic salary according to their position and responsibility, as well as a bonus tied to the Company's performance for each fiscal year. Additionally, to promote shareholder-oriented management (aligning their interests with those of shareholders), with the goal of motivating them to increase the Company's medium- to long-term value, the Company provides medium- to-long term incentives based on stock compensation. The Company provides External Managing Directors only with basic compensation, taking into account their duties and responsibilities. The total amount of monetary compensation for Managing Directors and the total amount of their stock compensation will be within the limit determined by the General Meeting of Shareholders.

2. Matters concerning determination of details on individual Managing Director's compensation

Decisions on individual Managing Director's compensation are delegated solely to the President and Representative Director, who decides based on resolutions by the Board of Directors. The President and Representative Director makes decisions from a perspective of transparency and fairness, and upon consulting with the Nomination and Compensation Committee, which consists of a majority of Independent External Managing Directors, and in light of that committee's deliberation results. (Stock compensation is determined in accordance with the criteria established by the Board of Directors.)

In the event that a Managing Director who is eligible for stock compensation commits a material violation of a law or regulation, or a regulation of the Company, or any other circumstance that may arise, the Nomination and Compensation Committee will be consulted, and based on the committee's deliberation results, the Board of Directors will decide whether to claim forfeiture of the right to receive stock compensation or seek the return of all or a proportionate amount of money for already-paid stock compensation from the relevant Managing Director.

3. Policy regarding determination of basic compensation

Basic compensation is a fixed monthly salary, determined based on position and responsibilities, the Company's performance, industry standards, employee salary levels, and other factors.

4. Policy for determining performance-linked compensation (executive bonuses)

Executive bonuses are determined based on the Company's performance indicators and are paid as monetary compensation at a fixed time each year. In determining the bonus, the Company's performance, the Managing Director's responsibilities based on their position, whether they have the right to represent the Company, and their individual contribution to business performance are all considered

5. Policy regarding determination of stock compensation (PSU/RS)

(1) Medium-term incentive: Performance Share Units (PSUs)

In addition to promoting a shareholder-centric approach in management (sharing interests with shareholders) and with the goal of providing motivation to raise corporate value over the medium-term, the Company will grant performance-based stock compensation (with transfer restrictions) after the end of the Mid-term Management Plan, based on the varying degree of achievement toward the targets set in the plan.

(2) Long-term incentive: Restricted stock compensation (RS)

To encourage shareholder-centric management (alignment of interests with shareholders) and drive long-term corporate value growth through sustainability initiatives, including safety and security, the Company will annually grant restricted stock compensation (restricted stock) commensurate with each officer's position.

6. Policy on determining the percentage of the amount of compensation (base compensation, executive bonuses and stock compensation (PSU/RS)) for each individual Managing Director

For Managing Directors who are not External Managing Directors, the ratio of compensation, including basic salary, executive bonuses, and stock compensation (PSU/RS), will be structured so that when all performance indicators meet the target, the basic salary, executive bonuses, PSU, and RS will be approximately 5:1:2:2.
