

2025 P14	Safety	Responses, Countermeasures and Training to Handle Accidents and Disasters
	Basic Course	

Emergency response system

Safety equipment

Disaster countermeasures

Human resources development

KEY POINT

By learning about Tokyo Metro's various responses, countermeasures, and training for accidents and disasters, etc., you will be able to use them as a reference when considering such countermeasures.

OVERVIEW

We will introduce examples of emergency responses to handle accidents and disasters, station and train safety measures, disaster and railway terrorism countermeasures, as well as training and drills to improve safety.

LECTURE CONTENTS

1) Establishment of an emergency response system in the event of an accident or disaster, etc.

- Implementation details of emergency response system
- Implementation of various types of drills in preparation for accidents and disasters, etc. (comprehensive drills simulating emergencies, drills in cooperation with the government, etc.)

2) Safety measures

- Station safety measures
- Train safety measures

3) Disaster and railway terrorism countermeasures

- Countermeasures against earthquakes, large-scale flooding, strong wind, wide-spread power outage, fire, and railway terrorism

4) Human resources development for safety improvements

- Training and drills aimed at equipping employees with the necessary knowledge and skills to ensure transportation safety and provide peace of mind
